

PERENNIAL HAY COVER[®]

Scotiabank 

The Light Land Blend

This blend is designed for light/variable land. Increased alfalfa rates are ideal for regrowth potential in areas where water is a limiting factor. This blend is designed for 1-2 cuts of hay (depending on moisture) and grazing for later in the fall.

Seeding Rate: 14-16 lbs/acre

SKU: 50 lb Tote

Legumes are pre-inoculated
